

Sleaford NHS Walk in Centre

The Unit, run by a team of experienced GPs and nurses will be available seven days a week but will be closed on Christmas Day, Boxing Day and Easter Sunday.

On arrival, patients are assessed and the injury treated by a trained nurse or doctor as appropriate, however in some cases it may be necessary to refer patients on to further treatment at a hospital.

When is the centre open?

Sleaford Medical Group will begin providing an urgent care service on week days, weekends and Bank Holidays starting from Saturday 26 October from 8.00am to 8.00pm.

In addition they will be extending their Minor Injuries Unit hours to 8.00pm daily.

The unit is based at the (Sleaford Medical Group), Boston Road in Sleaford.

What can we help with?

They will be able to treat a range of conditions including the following, however this list is not exhaustive:

- Minor cuts and grazes
- Chest infections
- Minor cuts requiring stitches
- Skin infections
- Acute sprains and strains
- Joint and Limb pain/stiffness
- Acute sports injuries
- Animal and human bites
- Removal of foreign bodies
- Genito-urinary infections, including STIs
- Minor burns
- Abdominal pain without fever
- Minor neck injury
- Insect stings
- Whiplash
- Diarrhoea and vomiting
- Foreign bodies in eyes
- Coughs (for less than four weeks)
- Ear infections
- Breathing related problems including (asthma, bronchitis and COPD)

However, they cannot provide care for serious injuries, major accidents, severe chest pains, serious breathing problems, severe pain of any description (ie likely appendicitis), road traffic accidents, anaphylactic reactions or collapse.

Do I need to register?

The services are available to patients whether or not they are registered with a GP, and can provide care for those not living in Sleaford or the surrounding area. The unit can care for patients attending with both minor illnesses and injuries and is a walk in service.

Minor illnesses WILL only be seen outside of normal practice hours. Within hours patients will be directed back to their own GP.

Will information about my visit be sent to my GP?

The patients' own GP will receive a summary of the care received, if consent is given, following the consultation so their notes can be updated accordingly. Any patient who cannot be treated will be referred on as appropriate.

Dr Vindi Bhandal, Chair South West Lincolnshire CCG said, *“With ever-increasing pressure in A&E, we are encouraging patients to make use of the extended hours offered by the unit in Sleaford. By using the services offered at the practice, we can ensure patients receive the right care locally, first time.”*
